

## Advantage over continuous vacuum belt filters

GKD: VACUBELT® filter belts for key industries

WORLD WIDE WEAVE

Picture 1: The highly permeable VACUBELT® 3354 polyester filter belt offers greater cooling lubricant filtration security.

Picture 2: The high-performance VACUBELT® filter belts play a key role for phosphogypsum dewatering. GKD designs and thermally matches these belts individually to the specific phosphogypsum properties, which themselves differ from process to process.

Picture 3: VACUBELT® 5060 filter belts demonstrate their exceptional efficiency in salt dewatering applications.

Picture 4: Thanks to its specific mesh design, the VACUBELT® 2015, produced from pure polyester monofilaments, fulfills the strictest requirements for FGDP gypsum dewatering.
